**New Claims**

Applicant adds new dependent claims 30-32. Nowhere does the combination of Flohr and Narayanaswami teach or suggest the communication and data display system and method containing the approximately 5 GHz common-protocol wireless network that is used to transmit both graphical data and control data between a first wireless appliance to a wireless projection system as required by dependent claims 30-32.

Therefore, Applicant respectfully submits that new dependent claims 30-32 are in a condition for allowance, and respectfully request a Notice to that effect.

**Conclusion**

All objections and rejections having been addressed, it is respectfully submitted that the present application is in a condition of allowance and a Notice to that effect is earnestly solicited. If any points remain in issue which the Examiner feels may be best resolved through a personal or telephone interview, the Examiner is kindly requested to contact the undersigned at the telephone number listed below.
